SYSTEM OVERVIEW

Purpose of AcuReview 2

AcuReview 2 is designed to streamline pathology workflows by providing a centralized dashboard for case management, reporting, and communication.

Overview of Features

- Dashboard overview
- Navigation and drill-down features
- Search and sort controls
- Practice selection
- System notifications and chat
- Main menu items including Doctor Review, Locate Patient, Request List, Templates, Stain Profile, and Reports

LOGGING IN TO ACUREVIEW 2

[LEARN MORE](#)

1. Logging In To AcuReview 2

This training manual provides step-by-step instructions for accessing and logging into AcuReview 2, including password recovery and multi-factor authentication procedures.

- Go to: <https://acureview.acupath.com>
- Alternatively, visit <https://www.acupath.com> and click the 'AcuReview 2' button.

2. Logging In

- Click 'Login with Azure'.
- Enter your email address and password.

Login with Azure

3. Forgot Your Password?

- Click 'Forget your password'.
- Enter your email address.
- Click 'Send a verification code'.
- Check your email for the code.
- Enter the code and change your password.

Sign in

Sign in with your email address

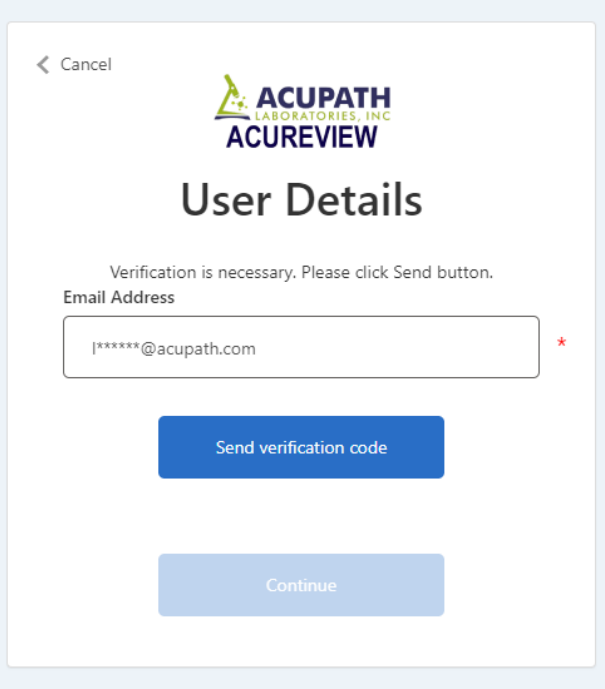

[Forgot your password?](#)

Sign in

4. Multi-Factor Authentication (MFA)

TOPICS

- After entering your password, click 'Send verification code'.
- This step is required by HIPAA to protect sensitive health information.
- The code will be sent to your email via Microsoft.
- Enter the code and click 'Verify Code'.
- If needed, click 'Send New Code'.
- Click 'Continue' to complete login.

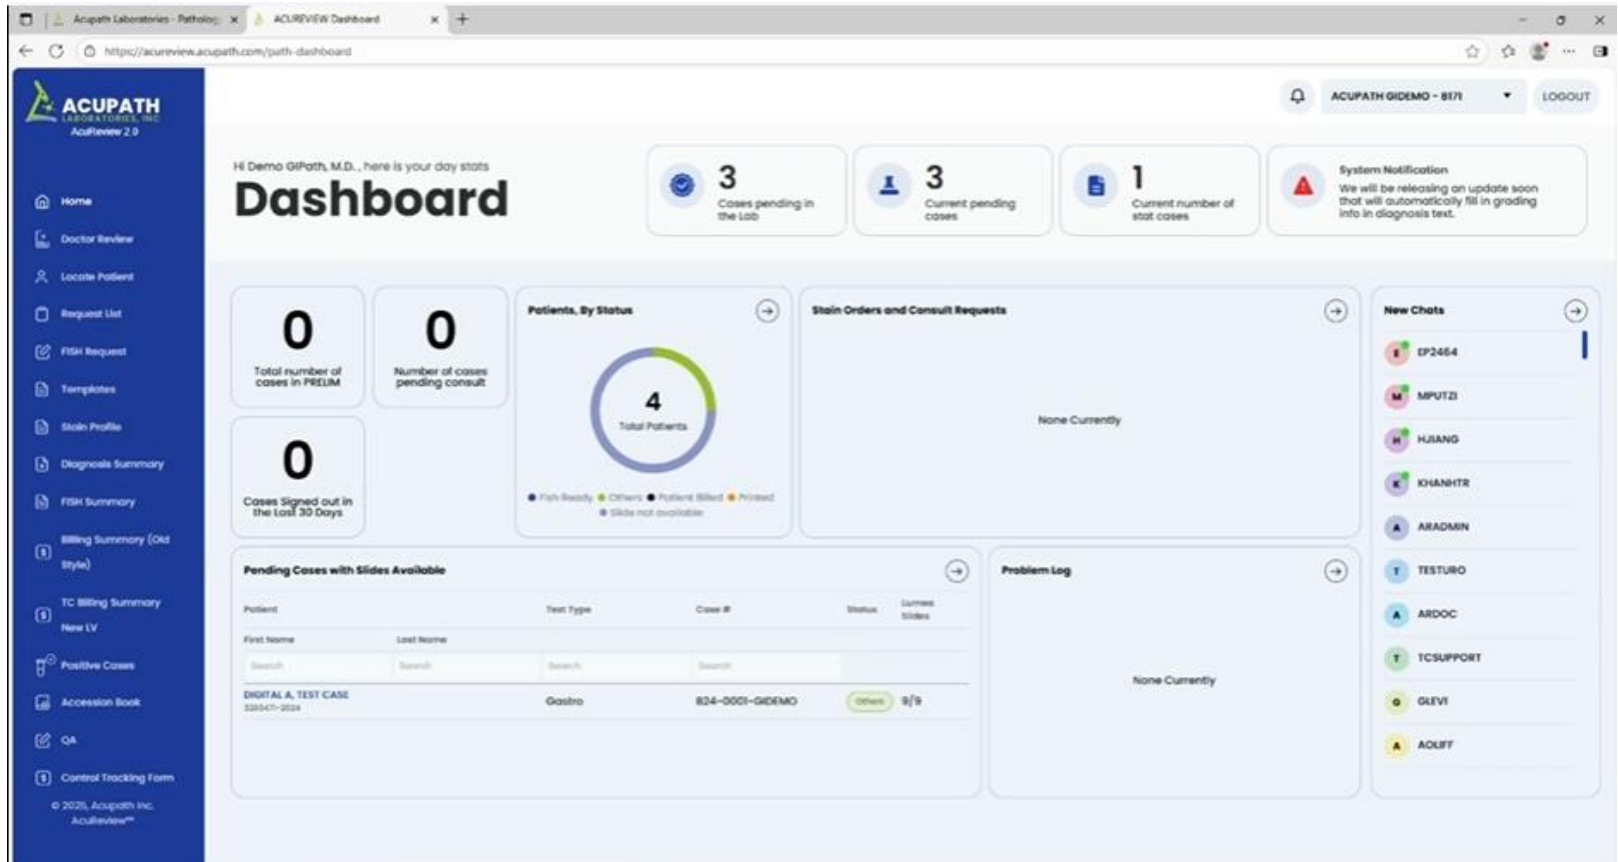

The screenshot shows a mobile application interface for ACUPATH LABORATORIES, INC. ACUREVIEW. The screen is titled "User Details" and displays a message: "Verification is necessary. Please click Send button." Below this, there is a label "Email Address" and a text input field containing "*****@acupath.com". To the right of the input field is a red asterisk. Below the input field are two buttons: a blue button labeled "Send verification code" and a light blue button labeled "Continue". In the top left corner of the form, there is a back arrow and the text "Cancel".

5. Confirmation

TOPICS

- Once logged in, you'll see your dashboard.

The screenshot displays the ACUPATH ACUREVIEW Dashboard for a user named Hi Demo GIPath, M.D. The dashboard is organized into several sections:

- Header:** Includes the ACUPATH logo, version 2.0, and user information (ACUPATH GIDEMO - B171) with a LOGOUT button.
- Dashboard Title:** "Hi Demo GIPath, M.D., here is your day stats" followed by a large "Dashboard" heading.
- Key Metrics (Top Row):**
 - 3 Cases pending in the Lab
 - 3 Current pending cases
 - 1 Current number of stat cases
 - System Notification: We will be releasing an update soon that will automatically fill in grading info in diagnosis text.
- Summary Cards (Middle Row):**
 - 0 Total number of cases in PRELIM
 - 0 Number of cases pending consult
 - 0 Cases Signed out in the Last 30 Days
- Charts and Tables:**
 - Patients, By Status:** A donut chart showing 4 Total Patients. Legend: Fish Ready (blue), Others (yellow), Patient Billed (black), Printed (orange). Note: Slide not available.
 - Stain Orders and Consult Requests:** None Currently.
 - Pending Cases with Slides Available:** A table with columns: Patient (First Name, Last Name), Test Type, Case #, Status, and Current Slides. It lists a case for DIGITAL A, TEST CASE 2255-C7-2024, Gastro, with Case # 824-0001-GIDEMO, Status Others, and 9/9 slides.
 - Problem Log:** None Currently.
- Navigation Sidebar (Left):** Home, Doctor Review, Locate Patient, Request List, FISH Request, Templates, Stain Profile, Diagnosis Summary, FISH Summary, Billing Summary (Old Style), TC Billing Summary, New IV, Positive Cases, Accession Book, QA, Control Tracking Form.
- New Chats (Right):** A list of chat icons and names: EP2464, MPUT21, HUIANG, KHANHTR, ARADMIN, TESTURO, ARDOC, TCSUPPORT, GLEVI, AQLIFF.

LOCATE PATIENT SCREEN

1. Viewing Pending & Final Cases

TOPICS

- A. By default, the Locate Patient screen displays pending cases (not finalized).
- B. To view finalized cases, click the 'Show All' checkbox.
- C. Finalization dates will appear for finalized cases.

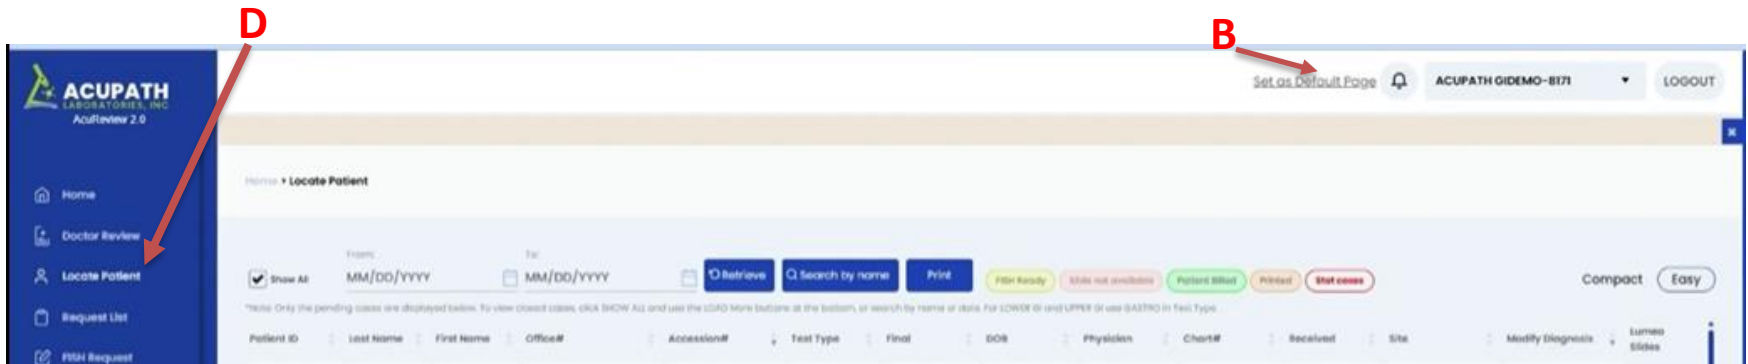

The screenshot shows the ACUPATH Locate Patient interface. The left sidebar contains navigation links: Home, Doctor Review, Locate Patient, Request List, FISH Request, Templates, Stain Profile, Diagnosis Summary, FISH Summary, Billing Summary (Old Style), TC Billing Summary, New LV, Positive Cases, Accession Book, and QA. The main area displays a table of patient cases with columns: Patient ID, Last Name, First Name, Office#, Accession#, Test Type, Final, DOB, Physician, Chart#, Received, Site, Modify Diagnosis, and Lumen Slides. The 'Show All' checkbox is circled in red with a 'B' label. The 'Final' column is circled in red with a 'C' label.

2. Locate Patient Set as Default Page

TOPICS

- A. Locate Patient is set as your Default Page with the full list of cases.
- B. If you'd prefer to make the Dashboard (Home) your Default Page, click the 'Set as Default Page' button.
- C. A confirmation message will appear indicating the default page has been set.
- D. To revert, click the Locate Patient button, then click the 'Set as Default Page' button.

3. Practice Selection

TOPICS

- A. Click the practice name displayed at the top of the screen.
- B. A dropdown list of available practices will appear.
- C. Use the search bar to quickly find a practice.
- D. Select the desired practice from the list.

4. System Notifications

- A. Notifications scroll across the bottom of the screen.
- B. Click the notification bar to pause scrolling and read the message.
- C. Click again to resume scrolling.

DOCTOR REVIEW SCREEN

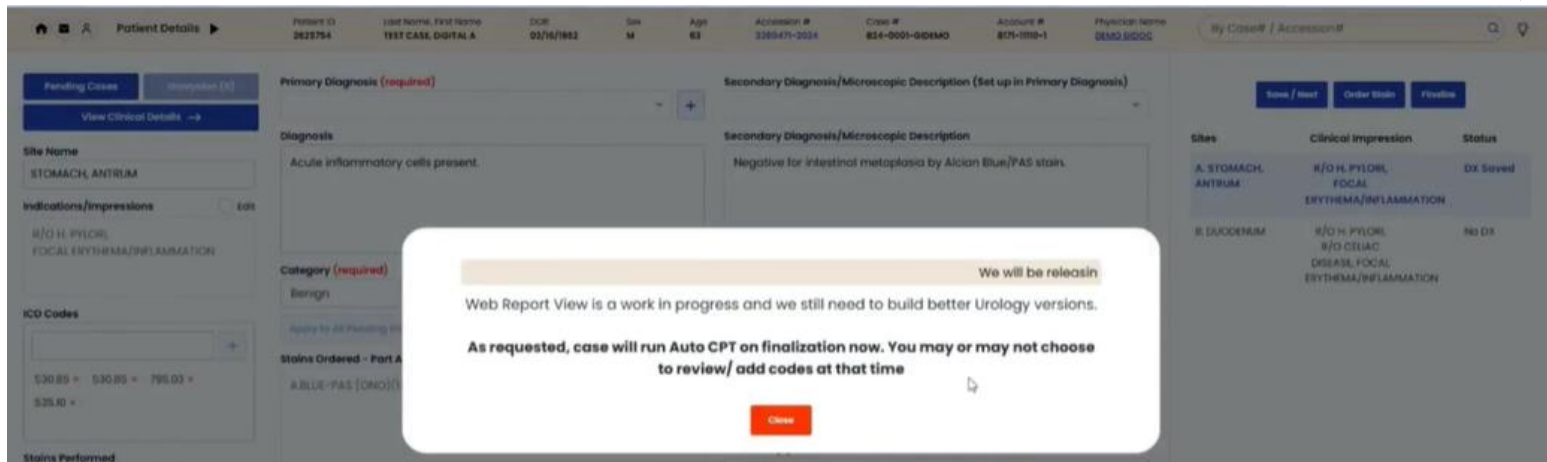

1. The Doctor Review Screen – Top Bar

TOPICS

- A. **Home Icon** – Takes you back to the Dashboard
- B. **Email Icon** – Allows you to open-up a form to send an email to the lab on the current case on your screen.
- C. **Locate Patient Icon** – This takes you back to the Locate Patient Screen, which is your full list of cases.
- D. **Patient Details** – **Patient ID, Last Name, First Name, Date of Birth, Sex/Gender, Age, Accession #**, which is the Acupath case number and if you hover your mouse over that number, it will provide the Date Obtained and Date Received. **Case #**, which is your case number and appears on all your slides. **Account #** at Acupath, and the **Physician Name**, and if you click the name, it will provide all the information about the Physician.
- E. **Search Box** – By Case # / Accession #.

- F. **Light Bulb Icon** – When clicked, it opens the System Alerts Window, which will show any current system alerts you should be aware of.

2. The Doctor Review Screen – Site List

TOPICS

- A. **Sites** – This is where the full list of all sites for this case will be. Any site that has dark blue text in a light blue background means this is the site that is selected and currently viewing on the screen. In this case, we are viewing Site A. As you click each site, the screen will change and that site information will be visible on screen.
- B. **Clinical Impression** – If you mouse over the clinical impression on each site, it will give you the Grossing Information in a peach box.
- C. **Status** – Dx Saved – means this site has been diagnosed and saved. No Dx – means this site has not been diagnosed.

Patient Details

Patient ID: 2625754 | Last Name, First Name: TEST CASE, DIGITAL A | DOB: 03/16/1962 | Sex: M | Age: 64 | Accession #: 3280471-2024 | Case #: 824-0001-GIDEMO | Account #: 8171-1110-1 | Physician Name: DEMO GUIDO

Primary Diagnosis Microcode Chooser

Diagnosis Text (required): Acute inflammatory cells present.

Category (required): Benign

Secondary Diagnosis/Microscopic Description (Set up in Primary Diagnosis)

Secondary Diagnosis/Microscopic Description: Negative for intestinal metaplasia by Alcian Blue/PAS stain.

Comment/Notes Code Chooser

Comment/Notes Text: Microorganisms morphologically consistent with Helicobacter pylori are present.

4. The Doctor Review Screen – Primary Diagnosis Section

TOPICS

- A. **Primary Diagnosis & Dropdown** – This is a dropdown of templates that you create that allow you to render your diagnosis. There is a search at the top area of the dropdown, and you can start typing the name to quickly find it from your library. If you would like to Edit or add a new template, you choose the “+”. This will open another window with all your templates, and you can choose to add or edit as needed.
- B. **Diagnosis Box** – When you choose your Primary Diagnosis template, it automatically generates the Diagnosis text in the box. You can also choose to edit that auto-generated text completely or do both, allow the auto-generated primary diagnosis and “free-text” any additional information as needed.
- C. **Category** – This is a required dropdown that you select your category options: Benign, Infectious, Cancer, etc.

This screenshot shows the 'Primary Diagnosis (required)' dropdown menu open. A red arrow labeled 'A' points to the dropdown header. The menu lists several templates: Atypia (AS), Benign (ACUTE), Positive (AIS), Atypia (ASH), Benign (BE), and Benign (CTZ/NFD). Below the list is a button 'Apply to All Pending Parts'. The 'Stains Ordered - Part B' section is visible below the dropdown. The patient details at the top include Patient ID 2625754, Last Name First Name TEST CASE, DIGITAL A, DOB 03/16/1962, Sex M, and Age 63.

This screenshot shows the completed 'Primary Diagnosis (required)' section. A red arrow labeled 'B' points to the 'Benign (ACUTE)' dropdown selection. Another red arrow labeled 'C' points to the 'Category (required)' dropdown, which is set to 'Benign'. The 'Diagnosis' box contains the text 'Acute inflammatory cells present.' A tooltip 'Click to expand window' is visible near the dropdown. The 'Stains Ordered - Part B' section is also visible. The patient details at the top are the same as in the previous screenshot.

5. The Doctor Review Screen – Edit Primary Diagnosis

TOPICS

Diagnosis Box – Another thing to note is that any of these Diagnosis Boxes can be “double-clicked” and they will open into a large window for easier typing and viewing. Keep in mind that the diagnosis cannot be more than 2000 characters, as this will ruin the structure of the report. Once you have completed your text, click Save.

The screenshot displays the 'Doctor Review Screen' for a patient with ID 2625764, last name TEST CASE, first name DIGITAL A, DOB 03/16/1942, sex M, age 63, accession # 3266475-2024, class # 824-0001-01000, account # 8171-0110-1, and physician name DEMO SIDOC. The main interface includes sections for Pending Cases, Site Name (DUODENUM), Indications/Impressions (R/O H. PYLORI, R/O CELIAC DISEASE, FOCAL ERYTHEMA/INFLAMMATION), ICD Codes (530.85 x 530.85 x 799.03 x 535.10 x), and Stains Performed (A BLUE-PAS, A BLUE-PAS (ONO), CDS). The Primary Diagnosis is set to Benign (ACUTE) with a description of Acute inflammatory cells present. A dialog box titled 'Edit - Primary Diagnosis' is open, showing the text 'Acute inflammatory cells present' and a cursor. The dialog box includes a 'Save' button and a 'Cancel' button. A note at the bottom of the dialog box states: 'Diagnosis cannot be more than 2000 characters.'

6. The Doctor Review Screen – Apply to All Parts, Secondary Diagnosis, & Notes

- A. Apply to All Pending Parts** – If you have additional sites that have not been diagnosed, this will allow you to apply the current diagnosis & category to all additional pending sites, as long as, there is NOT A POSITIVE DIAGNOSIS. This works for all Benign diagnoses.
- B. Save Next** – This button will take you to the next site, if you are on site A, click the button, it will then jump to site B, and so on. This is advantageous when you have multiple sites to review on a case. You would diagnose one site, Save Next and then proceed through all the sites.
- C. Secondary Diagnosis/Microscopic Description** – This works the same as a Primary Diagnosis, you choose the diagnosis from the dropdown menu, the description will auto-populate in the box below. This is based on the templates you have setup and there is a checkbox where you would choose to populate a Secondary Diagnosis. Again, you have the option to revise or add to the diagnosis and double click to enlarge the box.
- D. Notes Code and Comment** – The Notes Code is a dropdown that you can choose pre-saved notes, or you can press the “+” sign and add your own. Again, you have the option to revise or add to the comment and double click to enlarge the box.

The screenshot shows the Doctor Review Screen with patient information at the top: Patient ID 2625754, Last Name, First Name TEST CASE, DIGITAL A, DOB 03/16/1962, Sex M, Age 54, Accession # 3280471-2024, Case # B24-0001-GIDEMO, Physician Name DEMO GIDOC. The screen is divided into several sections:

- Primary Diagnosis Microcode Chooser:** A dropdown menu with a plus sign.
- Diagnosis Text (required):** A text box containing "Acute inflammatory cells present."
- Category (required):** A dropdown menu with "Benign" selected.
- Apply to All Pending Parts:** A button highlighted by red arrow A.
- Stains Ordered - Part A:** A text box containing "A.BLUE-PAS (ONO)(1-1); CD3(1-1); PAS(1-1)".
- Order Stains:** A green button at the bottom left.
- Secondary Diagnosis/Microscopic Description (Set up in Primary Diagnosis):** A dropdown menu highlighted by red arrow C.
- Secondary Diagnosis/Microscopic Description:** A text box containing "Negative for intestinal metaplasia by Alcian Blue/PAS stain."
- Comment/Notes Code Chooser:** A dropdown menu with a plus sign.
- Comment/Notes Text:** A text box containing "Microorganisms morphologically consistent with Helicobacter pylori are present."
- CPT Code(s):** A text box containing "88305-26X4, 88312-26X10, 88313-26X6, 88342-26X4".
- Consult Request:** A text box at the bottom.
- Save / Next, Order Stain, Finalize:** Three buttons at the top right, with "Save / Next" highlighted by red arrow B.
- Sites, Clinical Impression, Status:** A table on the right side of the screen.

Sites	Clinical Impression	Status
A. STOMACH, ANTRUM	R/O H. PYLORI, FOCAL ERYTHEMA/INFLAMMATION	DX Saved
B. DUODENUM	R/O H. PYLORI, R/O CELIAC DISEASE, FOCAL ERYTHEMA/INFLAMMATION	No DX

7. The Doctor Review Screen – Stains Ordered

TOPICS

- A. **Stains Ordered** – If you want to order stains, you can press the “Order Stains” button below which will pop-up the Order Stains Window. You can order stains based on the sites listed to the Left. This will be discussed further in a future video.
- B. **Another Order Stains Option** - There is also another “Order Stains” Button to the right that functions the same way as the other button. It will open a pop-up window in the same manner. This assists in keeping your workflow right to left.
- C. **Finalize** – If you are ready to finalize the case, you can click the button to the right OR there is also another button down below, this assists in workflow as some pathologists requested.

Patient Details

8. The Doctor Review Screen – CPT Code(s)

- A. CPT Code(s)** – You will notice in the CPT Code(s) window that the codes are already present, this is automatically generated based on the stains ordered. If you need them to automatically fill out, you can press the “Auto Update CPT” button and it will automatically fill them out.
- B. Add CPT Codes** - The (+) sign next to CPT Code(s) allow to edit the CPT codes you have manually entered. You cannot change or delete any CPT codes that have been auto-generated by the stains chosen. If you attempt to remove them, there will be a conflict because the stain was ordered and will cause a report and billing error.
- C. Email Button** - If you encounter this error, press the email button, this will go directly to the lab, and they will remove the CPT code and the stain as needed.

9. The Doctor Review Screen – ICD Codes, Stains Performed, Stain Profile

- A. **ICD Codes** – Type in the ICD Code and then press the “+” sign and it will appear within the box.
- B. **Stains Performed** – This lists all the stains performed on the case. You can choose the “Update” button to force an update, but these should automatically update.
- C. **Stain Profile** – This is your upfront Stain Profile; these are the stains you chose to have done upfront based on the site. When clicked, a window will open with all those stains ordered. If you click any stain name Ordered on the left, the corresponding site name(s) appear on the right. This will be discussed, in more detail, in another video.

Your upfront stain profile is shown here. If you select the stain on the left, you will see what words 'trigger' the stain order. If one of those words is in the test site name, the stain will automatically be ordered. Please contact TC Support if you need to discuss this or make changes. You may contact them by using the email button on this screen, or by calling or emailing them directly.

*Stains that have (O) next to them are stains being performed to detect microorganisms.

*Stains that have (NO) next to them are stains being performed to detect non-microorganism substances.

*Stains that have (ONC) next to them are being performed to detect microorganisms, non-microorganism substances, or both.

*These modifiers are used to select the appropriate use of the stain to create select the correct CPT code for billing.

10. The Doctor Review Screen – Bottom Progress Bar

TOPICS

- A. **Progress Bar** – This case is “In Progress” as seen in the lower left of the bar with a yellow dot.
- B. **Preliminary, Finalized, & Supplemental/Amended** – These fields are date driven, the dates would appear in these boxes if any of these items have been done.
- C. **Preliminary Option** – To put a case in “Prelim” you must check the box on the lower right.

The screenshot displays the Doctor Review Screen for a patient with ID 2625754. The patient's details include: Last Name, First Name: TEST CASE, DIGITAL A; DOB: 03/16/1962; Sex: M; Age: 64; Accession #: 3280471-2024; Case #: 824-0001-GIDEMO; Account #: 8171-11110-1; Physician Name: DEMO.GIDOC.

The main form area contains several sections:

- Pending Cases:** Urovision (1), View Clinical Details →
- Site Name:** STOMACH, ANTRUM
- Indications/Impressions:** R/O H. PYLORI, FOCAL ERYTHEMA/INFLAMMATION
- ICD Codes:** 530.85 x, 530.85 x, 795.03 x, 535.10 x
- Stains Performed:** A.BLUE-PAS; A.BLUE-PAS (O); HP; PAS
- Primary Diagnosis Microcode Chooser:** Acute inflammatory cells present.
- Secondary Diagnosis/Microscopic Description (Set up in Primary Diagnosis):** Negative for intestinal metaplasia by Alcian Blue/PAS stain.
- Category (required):** Benign
- Comment/Notes Code Chooser:** Microorganisms morphologically consistent with Helicobacter pylori are present.
- Stains Ordered - Part A:** A.BLUE-PAS (ONO)(1-1); CD3(1-1); PAS(1-1)
- CPT Code(s):** 88305-26X4, 88312-26X10, 88313-26X6, 88342-26X4
- Consult Request:** Auto Update CPT, Request Consult

On the right side, there is a table showing Sites, Clinical Impression, and Status:

Sites	Clinical Impression	Status
A. STOMACH, ANTRUM	R/O H. PYLORI, FOCAL ERYTHEMA/INFLAMMATION	DX Saved
B. DUODENUM	R/O H. PYLORI, R/O CELIAC DISEASE, FOCAL ERYTHEMA/INFLAMMATION	No DX

At the bottom, the progress bar shows the following status options: In Progress (with a yellow dot), Preliminary, Finalized, Supplemental/Amended, and a Preliminary checkbox. The bar also includes buttons for Pending Cases, Patient History, View Scanned Docs, Amended Reports, View Report PDF, Report Web View, Amend, Finalize, SAVE, and Save / Next.

11. The Doctor Review Screen – Lumea Digital Slides

TOPICS

- A. Lumea Digital Slides** – If you are a digital client, by pressing the Lumea button, you will be prompted to sign-in to Lumea, if you haven't already done so, you will then be brought to your first available slide on the current case you have open.
- B. Lumea Digital Slides** – By clicking the navigator at the top, you can choose any slide from the case. There are other videos available for using Lumea, please contact us for information.
- C. Slide Count Feature** – On the Lumea Digital Slides button there is a “9/9” displayed. This indicates that all expected slides have been uploaded for this case.

12. The Doctor Review Screen – Pending Cases

TOPICS

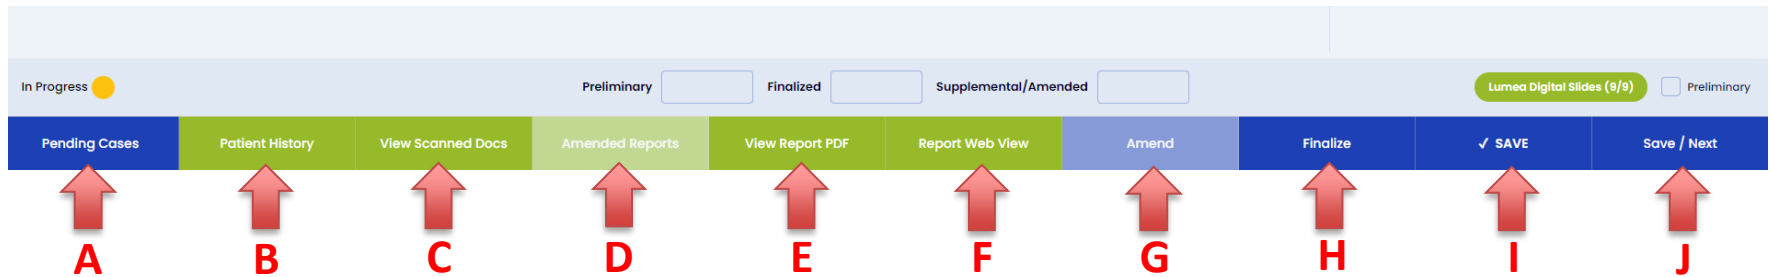

- A. Pending Cases** – The Pending Cases button opens and displays all cases that are available for diagnosis. This advises if the stains were done, and if the digital slides are available for review by the pathologist. The Pending Cases button is at the top and bottom for convenience. Your Locate Patient screen shows all your cases; your pending cases only shows those that have not been finalized. You can search by a Patient First/Last Name or by your internal case number. To close this window, just click the red “x” displayed.
- B. View Clinical Details** – The Clinical Details button works the same, it will open the window and provide; Grossing Information, Diagrams/Grossing Images, Clinical Information/Doctor Notes, and any History provided by the physician. You can leave this pane open while you diagnose your case or close it if not needed.

The sequence of screenshots illustrates the workflow for reviewing pending cases. It starts with the 'Pending Cases' screen, which allows searching by patient name or case number. From there, the user can click 'View Clinical Details' to open a detailed view of a specific case. This detailed view includes sections for Grossing Information, Diagrams/Grossing Images, Clinical Information/Doctor Comments, and History. Red arrows labeled A, B, and C indicate the navigation steps between these screens.

C. Edit Grossing or Clinical Information/Doctor Comments - You can make any updates as needed, by clicking the Edit Grossing Button or the Edit button in the Clinical Information/Doctor Comments section. When you are done, uncheck the button and this saves your changes.

13. The Doctor Review Screen – Bottom Information Bar

TOPICS

- A. Pending Cases** – Opens and displays Pending Cases windowpane.
- B. Patient History** – If the patient has history and diagnosed at Acupath, the window will display any history and diagnosis.
- C. View Scanned Documents** – This will open the window and display any documents scanned into this case. (i.e., requisitions, or insurance information).
- D. Amended Reports** – If this report has been Amended, this will display the amended report.
- E. View Report PDF** – This will display the report as a PDF, please note that this takes some time to generate the report on screen.
- F. Report Web View** – This is a faster way to view the report on the web.
- G. Amend** – This allows you to Amend the case if needed.
- H. Finalize** – To finalize the case
- I. Save** – This is to Save the case, without going to your next case.
- J. Save / Next** – This saves the case AND goes to your next case.

HOW TO ORDER STAINS

1. The Order Stains Screen

TOPICS

A. Order Stains Buttons – There are two 'Order Stains' buttons on the Doctor Review screen: one below the 'Stains Ordered' box and another at the top near diagnosis tools. When either is clicked, the “Order Stains Window” will open.

The screenshot displays the 'Order Stains' interface. At the top, a header bar contains patient information: Patient ID 2625754, Last Name, First Name TEST CASE, DIGITAL A, DOB 03/16/1962, Sex M, Age 64, Accession # 3280471-2024, Case # B24-0001-GIDEMO, Account # 8171-11110-1, and Physician Name DEMO GIDOC. A search bar on the right allows filtering by Case # or Accession #.

The main content area is divided into several sections:

- Pending Cases:** Includes a 'View Clinical Details' button and a 'Site Name' field (STOMACH, ANTRUM).
- Indications/Impressions:** Includes an 'Edit' checkbox and a text area with 'R/O H. PYLORI, FOCAL ERYTHEMA/INFLAMMATION'.
- ICD Codes:** Includes a text area with '530.85 x 530.85 x 795.03 x 535.10 x'.
- Stains Performed:** Includes a text area with 'A.BLUE-PAS; A.BLUE-PAS (O); HP; PAS' and an 'Update' button.
- Primary Diagnosis Microcode Chooser:** Includes a dropdown menu and a '+' button.
- Diagnosis Text (required):** Includes a text area with 'Acute inflammatory cells present.'
- Category (required):** Includes a dropdown menu with 'Benign' selected and an 'Apply to All Pending Parts' button.
- Stains Ordered - Part A:** Includes a text area with 'A.BLUE-PAS (ONO)(1-1); CD3(1-1); PAS(1-1)' and an '+ Order Stains' button (indicated by red arrow A).
- Secondary Diagnosis/Microscopic Description:** Includes a text area with 'Negative for intestinal metaplasia by Alcian Blue/PAS stain.'
- Comment/Notes Code Chooser:** Includes a dropdown menu and a '+' button.
- Comment/Notes Text:** Includes a text area with 'Microorganisms morphologically consistent with Helicobacter pylori are present.'
- CPT Code(s):** Includes a text area with '88305-26X4, 88312-26X10, 88313-26X6, 88342-26X4'.
- Consult Request:** Includes a text area and 'Auto Update CPT' and 'Request Consult' buttons.

On the right side, there is a table with columns 'Sites', 'Clinical Impression', and 'Status':

Sites	Clinical Impression	Status
A. STOMACH, ANTRUM	R/O H. PYLORI, FOCAL ERYTHEMA/INFLAMMATION	DX Saved
B. DUODENUM	R/O H. PYLORI, R/O CELIAC DISEASE, FOCAL ERYTHEMA/INFLAMMATION	No DX

At the bottom, there is a navigation bar with buttons: Pending Cases, Patient History, View Scanned Docs, Amended Reports, View Report PDF, Report Web View, Amend, Finalize, ✓ SAVE, and Save / Next. A red arrow labeled 'A' points to the 'Order Stains' button in the 'Stains Ordered - Part A' section.

2. Order Stains Window

TOPICS

A. Order Stains Window – You will see a list of **Sites** on the left and the **Stain Name** options on the right. This allows you to order stains for more than one site at a time. When we look at the order stains list, you choose which stain you want.

A

Sites	Status	Name	CPT	Ordered	On Block/Level
A. STOMACH, ANTRUM, GC	No DX	A. BLUE-PAS (NO)	88313	<input type="checkbox"/>	Block 1
B. DUODENUM D2	No DX	A. BLUE-PAS (O)	88312	<input type="checkbox"/>	Block 1
C. STOMACH, ANTRUM LC	No DX	A. BLUE-PAS (ONO)	88312/88313	<input type="checkbox"/>	Block 1
D. STOMACH, ANULARIS	No DX	A. BLUE-PAS (ONO), A. BLUE-PAS (O)	88312, 88312/88313	<input type="checkbox"/>	Block 1
E. STOMACH, BODY GC	No DX	CD2, CD3, CD4, CD5, CD7, CD8, CD10, CD20, CD30, CD43, CD56, CD138, BCL-2, Ki-67	88342*15	<input type="checkbox"/>	Block 1
F. STOMACH, BODY LC	No DX				

Instructions:

To order a stain, please select the site and then check the "Ordered" box and enter instructions if needed. Then select **Order** or **Order/Next**.

To cancel a stain within 2 hours, select the ordered box and then the minus sign to uncheck the box. After two hours, it cannot be cancelled, and you'll need to contact the lab.

To get additional stains, select the plus sign under instructions to bring up our full list.

NOTE: CPT codes shown are associated with individual stains. Variants, such as (O), (NO), and (ONO) will change the CPT code. You will have an opportunity to review all the actual CPTs for the case, inclusive of all activities, at case finalization.

- *Stains that have (O) next to them are stains being performed to detect microorganisms.
- *Stains that have (NO) next to them are stains being performed to detect non-microorganism substances.
- *Stains that have (ONO) next to them are being performed to detect microorganisms, non-microorganism substances, or both.
- *These modifiers are used to select the appropriate use of the stain to select the correct CPT code for billing.

Buttons: ORDER, ORDER / NEXT, CLOSE

2. Order Stains Window (con't) – Choose Stain

TOPICS

- A. Order Stains Window** – You will see a list of **Sites** on the left and the **Stain Name** options on the right. This allows you to order stains for more than one site at a time. When we look at the order stains list, you choose which stain you want and check the box. This will generate the AutoCPT code for that stain. ○
- B. Order the Stain** - Now Click **ORDER**, and you have ordered the stain for that site. Now a window will open and advise “Your request sent to Acupath”.

The screenshot shows the ACUREVIEW Dashboard with the 'Order Stains' window open. The window displays a list of sites on the left and a table of stains on the right. The 'HELIcobACTER PYLORI' stain is selected, and the 'ORDER' button is highlighted.

Sites	Status	Name	CPT	Ordered	On Block/Level
A. STOMACH, ANTRUM, GC	No DX	FISH		<input type="checkbox"/>	Block 1
B. DUODENUM D2	No DX	GASTRIN	88342	<input type="checkbox"/>	Block 1
C. STOMACH, ANTRUM LC	No DX	HELIcobACTER PYLORI	88342	<input checked="" type="checkbox"/>	Block 1
D. STOMACH, ANTRUM LC	No DX	LEVELS x 3		<input type="checkbox"/>	Block 1
E. STOMACH, BODY GC	No DX	MELANOMA FISH		<input type="checkbox"/>	Block 1
F. STOMACH, BODY LC	No DX				

Instructions:

To order a stain, please select the site and then check the "Ordered" box and enter instructions if needed. Then select **Order** or **Order/Next**.
To cancel a stain within 2 hours, select the ordered box and then the minus sign to uncheck the box. After two hours, it cannot be cancelled, and you'll need to contact the lab.
To get additional stains, select the plus sign under instructions to bring up our full list.

NOTE: CPT codes shown are associated with individual stains. Variants, such as (O), (NO), and (ONO) will change the CPT code. You will have an opportunity to review all the actual CPTs for the case, inclusive of all activities, at case finalization.

*Stains that have (O) next to them are stains being performed to detect microorganisms.
*Stains that have (NO) next to them are stains being performed to detect non-microorganism substances.
*Stains that have (ONO) next to them are being performed to detect microorganisms, non-microorganism substances, or both.
*These modifiers are used to select the appropriate use of the stain to select the correct CPT code for billing.

Buttons: ORDER, ORDER / NEXT, CANCEL

3. Stains Ordered Confirmation

TOPICS

- A. **Stains Ordered Section** – As the screen refreshes, you will now see the stain listed in the Stain Ordered section.
- B. **Order Additional Stains for the same Site** – If you click the + **Order Stains** button again, you can now order another stain for that site.

The screenshot displays the ACUPATH web application interface. The top navigation bar includes links for Mail, Outlook, New Tab, My LastPass Vault, Ticket: Acureview 2: Make..., ACUREVIEW Dashboard, and Clipchamp | M365 Copilot. The main header shows patient details: Patient ID 2635402, Last Name, First Name TEST, DOB 06/07/1970, Sex M, Age 55, Accession # 3368438-2025, Case # 825-0008-GIDEMO, Account # 8171-1110-1, and Physician Name DEMO GIDOC. The left sidebar contains sections for Pending Cases, Urovisyon (0), View Clinical Details, Site Name (STOMACH, ANTRUM, GC), Indications/Impressions (R/O H. PYLORI, FOCAL ERYTHEMA, INFLAMMATION), ICD Codes, and Stains Performed. The main content area is divided into several sections: Primary Diagnosis (required), Secondary Diagnosis/Microscopic Description (Set up in Primary Diagnosis), Secondary Diagnosis/Microscopic Description, Notes Code, Comment, Stains Ordered (Part A) showing HELICOBACTER PYLORI(1-1), and CPT Code(s) showing 8.26X8. A red arrow labeled 'A' points to the 'Stains Ordered' section, and a red arrow labeled 'B' points to the '+ Order Stains' button. The right sidebar contains a table with columns for Sites, Clinical Impression, and Status, listing various sites and their corresponding clinical impressions and statuses. The bottom navigation bar includes links for Pending Cases, Patient History, View Scanned Docs, Amended Reports, View Report PDF, Report Web View, Amend, Finalize, SAVE, and Save / Next. The bottom status bar shows 'In Progress' with a yellow dot, 'Preliminary' with a checkbox, 'Finalized' with a checkbox, 'Supplemental/Amended' with a checkbox, 'Lumexa Digital Slides (0/0)' with a checkbox, and 'Preliminary' with a checkbox. The bottom right corner shows the date and time: 8:15 AM 9/2/2025.

4. Order Additional Stains for a Site

TOPICS

A. Order Stains Window – If you want to order another stain for a site, you follow the same steps as above. But, if the stain you'd like to choose is not available in your current list, you can press the “+” sign on the bottom, and you now have access to the full list of stains Acupath has to offer in our full library.

Order Stains - Part A - STOMACH, ANTRUM, GC

Sites	Status	Name	CPT	Ordered	On Block/Level
A. STOMACH, ANTRUM, GC	No DX	Search			
B. DUODENUM D2	No DX	A.BLUE-PAS (NO)	88313	<input type="checkbox"/>	Block 1
C. STOMACH, ANTRUM LC	No DX	A.BLUE-PAS (O)	88312	<input type="checkbox"/>	Block 1
D. STOMACH, ANGULARIS	No DX	A.BLUE-PAS (ONO)	88312/88313	<input type="checkbox"/>	Block 1
E. STOMACH, BODY GC	No DX	A.BLUE-PAS (ONO),A.BLUE-PAS (O)	88312,88312/88313	<input type="checkbox"/>	Block 1
F. STOMACH, BODY LC	No DX	CD2,CD3,CD4,CD5,CD7,CD8,CD10,CD20,CD30,CD43,CD56,CD138,BCL-2,KI-67	88342*15	<input type="checkbox"/>	Block 1

Instructions:

To order a stain, please select the site and then check the "Ordered" box and enter instructions if needed. Then select **Order** or **Order/Next**.
To cancel a stain within 2 hours, select the ordered box and then the minus sign to uncheck the box. After two hours, it cannot be cancelled, and you'll need to contact the lab.
To get additional stains, select the plus sign under instructions to bring up our full list.

NOTE: CPT codes shown are associated with individual stains. Variants, such as (O), (NO), and (ONO) will change the CPT code. You will have an opportunity to review all the actual CPTs for the case, inclusive of all activities, at case finalization.

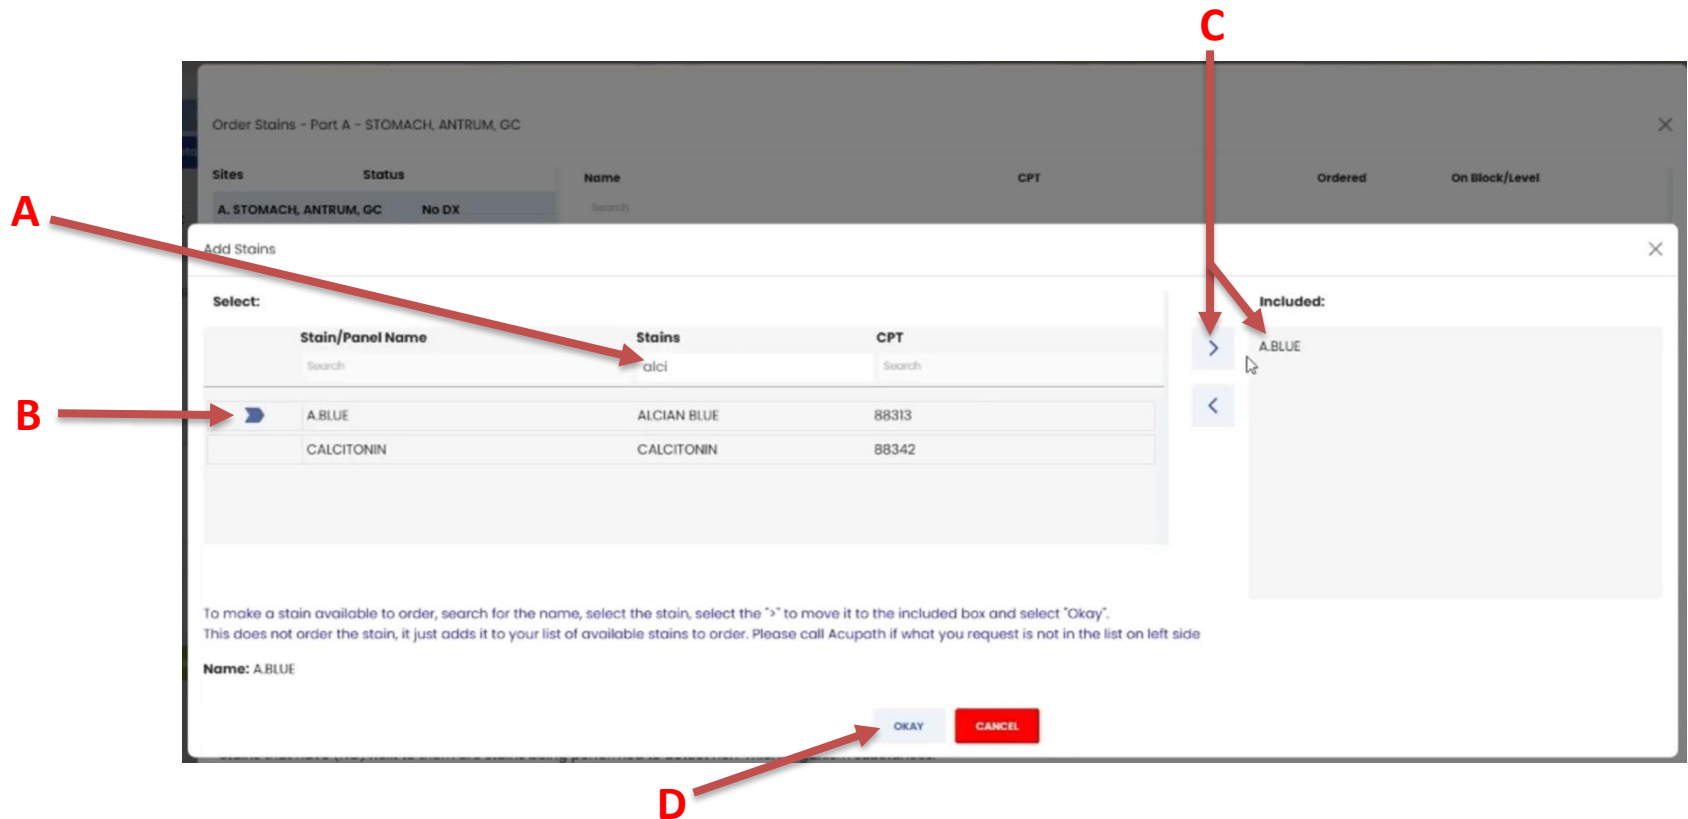

- *Stains that have (O) next to them are stains being performed to detect microorganisms.
- *Stains that have (NO) next to them are stains being performed to detect non-microorganism substances.
- *Stains that have (ONO) next to them are being performed to detect microorganisms, non-microorganism substances, or both.
- *These modifiers are used to select the appropriate use of the stain to select the correct CPT code for billing.

Buttons: ORDER, ORDER / NEXT, CLOSE

5. Stain Library Window – Add Stains

TOPICS

- A. **Stain Library Window** – If you want to add a stain, in this case, A.BLUE, you will type the name in the search box under the word “Stains”.
- B. **Choose the Stain** – Choose A.BLUE and click in the box before the stain name and the blue arrow indicates this is your choice.
- C. **Add the Stain to your Library** – Now click the blue arrow and it now shows this is Included.
- D. **OKAY Button** – Once you click “OKAY” this stain is added to your Library list.

6. New Stain in Library Available in the Order Stains Window

TOPICS

- A. Stain Added to List** – The new Stain is added to your list but has not been ordered on the Site A yet.
- B. Order the Added Stain** – To add this stain to this Site A, choose A.BLUE and check the box under ordered.
- C. Order/Next Stain** – If you click **ORDER/NEXT**, you have now ordered the stain for that Site A, and it will automatically go to the next Site, which is Site B. You can do this for all your site's moving forward to move through your case. **Please note**, if you want to order more than one stain on one site, do not use Order/Next, just click **Order** to stay on that site and choose your next stain, until you're finished ordering all stains for that one site.
- D. Search by Stain Name** – You can search the name of your stain by typing it in the field, rather than scroll through alphabetically.

The screenshot shows the 'Order Stains - Part A - STOMACH, ANTRUM, GC' window. Red arrows point to the following features:

- A** points to the 'Sites' column, specifically 'A. STOMACH, ANTRUM, GC'.
- B** points to the 'Ordered' checkbox for 'A. BLUE'.
- C** points to the 'ORDER / NEXT' button.
- D** points to the 'Search' field in the 'Name' column.

Sites	Status	Name	CPT	Ordered	On Block/Level
A. STOMACH, ANTRUM, GC	No DX	A. BLUE	88313*2	<input type="checkbox"/>	Block 1
B. DUODENUM D2	No DX	A. BLUE-PAS (NO)	88313	<input type="checkbox"/>	Block 1
C. STOMACH, ANTRUM LC	No DX	A. BLUE-PAS (O)	88312	<input type="checkbox"/>	Block 1
D. STOMACH, ANGULARIS	No DX	A. BLUE-PAS (ONO)	88312/88313	<input type="checkbox"/>	Block 1
E. STOMACH, BODY GC	No DX	A. BLUE-PAS (ONO), A. BLUE-PAS (O)	88312, 88312/88313	<input type="checkbox"/>	Block 1
F. STOMACH, BODY LC	No DX				

Instructions:

To order a stain, please select the site and then check the "Ordered" box and enter instructions if needed. Then select **Order** or **Order/Next**.
 To cancel a stain within 2 hours, select the ordered box and then the minus sign to uncheck the box. After two hours, it cannot be cancelled, and you'll need to contact the lab.
 To get additional stains, select the plus sign under instructions to bring up our full list.

NOTE: CPT codes shown are associated with individual stains. Variants, such as (O), (NO), and (ONO) will change the CPT code. You will have an opportunity to review all the actual CPTs for the case, inclusive of all activities, at case finalization.

*Stains that have (O) next to them are stains being performed to detect microorganisms.
 *Stains that have (NO) next to them are stains being performed to detect non-microorganism substances.
 *Stains that have (ONO) next to them are being performed to detect microorganisms, non-microorganism substances, or both.
 *These modifiers are used to select the appropriate use of the stain to select the correct CPT code for billing.

7. Stain Variants

TOPICS

- A. **Stain Variants** – You'll notice here that under CPT you see the CPT code you would get if you'd ordered a particular stain.
- B. **A.BLUE PAS Stain** - as an example, there are several stain variants, such as, **O, NON, and ONO**. “**O**” means you’re looking for an **Organism** with a CPT of **88312**. There are an explanations of these Stain Variants at the bottom. All Stains will have their corresponding CPT code next to it.
- C. **A.BLUE PAS (NO)** – means you are looking for a **Non-Organism** with a CPT of **88313**.
- D. **A.BLUE PAS (ONO)** - means you're looking for an **Organism or a Non-Organism** and that's going to give a CPT of **88312/88313**. And you will continue to order your stains for all your sites as needed until all have been completed.

The screenshot shows the 'Order Stains - Part A - STOMACH, ANTRUM, GC' window. It contains a table with columns: Sites, Status, Name, CPT, Ordered, and On Block/Level. The 'Sites' column lists various anatomical locations. The 'Status' column shows 'No DX'. The 'Name' column lists different stain variants. The 'CPT' column shows the corresponding CPT codes. The 'Ordered' column has checkboxes. The 'On Block/Level' column shows 'Block 1'.

Sites	Status	Name	CPT	Ordered	On Block/Level
A. STOMACH, ANTRUM, GC	No DX	A. BLUE	88313*2	<input type="checkbox"/>	Block 1
B. DUODENUM D2	No DX	A. BLUE-PAS (NO)	88313	<input type="checkbox"/>	Block 1
C. STOMACH, ANTRUM, GC	No DX	A. BLUE-PAS (O)	88312	<input type="checkbox"/>	Block 1
D. STOMACH, ANGULARIS	No DX	A. BLUE-PAS (ONO)	88312/88313	<input type="checkbox"/>	Block 1
E. STOMACH, BODY GC	No DX	A. BLUE-PAS (ONO), A. BLUE-PAS (O)	88312, 88312/88313	<input type="checkbox"/>	Block 1
F. STOMACH, BODY IC	No DX				

Instructions:

To order a stain, please select the site and then check the "Ordered" box and enter instructions if needed. Then select **Order** or **Order/Next**.
To cancel a stain within 2 hours, select the ordered box and then the minus sign to uncheck the box. After two hours, it cannot be cancelled, and you'll need to contact the lab.
To get additional stains, select the plus sign under instructions to bring up our full list.

NOTE: CPT codes shown are associated with individual stains. Variants, such as (O), (NO), and (ONO) will change the CPT code. You will have an opportunity to review all the actual CPTs for the case, inclusive of all activities, at case finalization.

- *Stains that have (O) next to them are stains being performed to detect microorganisms.
- *Stains that have (NO) next to them are stains being performed to detect non-microorganism substances.
- *Stains that have (ONO) next to them are being performed to detect microorganisms, non-microorganism substances, or both.
- *These modifiers are used to select the appropriate use of the stain to select the correct CPT code for billing.

8. Stain Order Confirmation

TOPICS

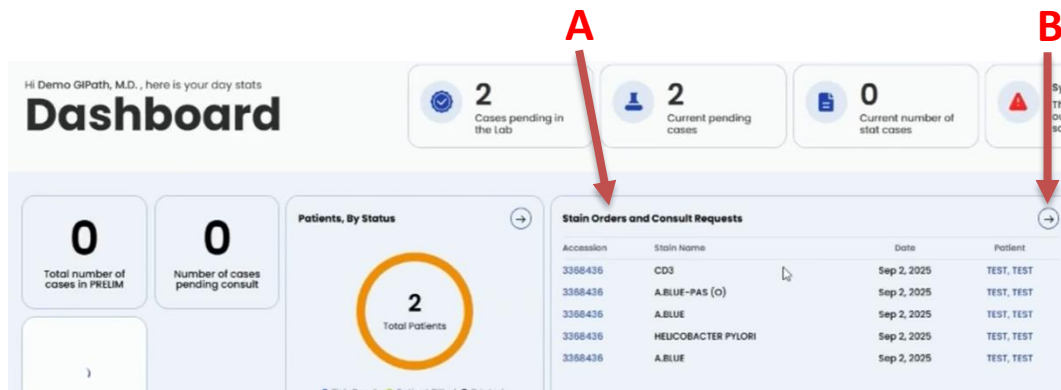

- A. **Stain Ordering Confirmation** – Each time you a stain, and if you choose either “Order” or “Order/Next” a window will appear in the upper right in green and another window will appear on the bottom right in blue advising the Accession#, Site#, and the stain ordered.
- B. **Stain Ordering Completed** – When you have completed ordering all your stains in the stain ordering window and choose “Close” a white window will open advising that your request has been sent to Acupath.
- C. **Dashboard** – Review your stains ordered by returning to your Dashboard by pressing the Home button.

The screenshot shows the Acupath Stain Ordering interface. At the top, a patient details bar includes fields for Patient ID, Last Name, First Name, DOB, Sex, Age, Accession #, Case #, Account #, and Physician Name. Below this, the main form is divided into sections for Pending Cases, Site Name, Indications/Impressions, ICD Codes, Stains Performed, Primary Diagnosis, Secondary Diagnosis/Microscopic Description, Category, Notes Code, and Stains Ordered - Part A. A green box labeled 'C' points to the 'Pending Cases' section. A white dialog box labeled 'B' with the text 'Your request sent to Acupath.' and an 'Okay' button is centered on the screen. A green box labeled 'A' points to the 'Order Stain' button in the top right corner. A blue box labeled 'A' points to a notification in the bottom right corner that reads: 'New stains order received (Accession - 3368436, Site No - H, Stains - CD3 (7012711-1)) by GPATH'. The bottom of the interface features a navigation bar with buttons for Pending Cases, Patient History, View Scanned Docs, Amended Reports, View Report PDF, Report Web View, Amend, Finalize, and a 'SAVE' button.

9. Stain Orders Window

TOPICS

- A. **Stains Ordered and Consultation Requests** – This window will show you your stains ordered by accession number, date and Patient.
- B. **Stains Dropdown** – By pressing the arrow dropdown, this opens the Stain Orders window.
- C. **Stain Order Window** – Here you can view all the stains ordered, the status of your stains, which site, and if they are ready for review. In this case, they have recently been ordered and show as “Requested”.

The screenshot shows the "Stain Orders" window with a search bar and a "Retrieve" button. The table below lists the following data:

Patient Name	Patient ID	Test#	Requested Date	Accession#	Description	Chart#	Sendback	Status
TEST, TEST	2635402	A	09/02/2025	3368436	HELICOBACTER PYLORI	14711	-	Requested
TEST, TEST	2635402	D	09/02/2025	3368436	A.BLUE	14711	-	Requested
TEST, TEST	2635402	E	09/02/2025	3368436	HELICOBACTER PYLORI	14711	-	Requested
TEST, TEST	2635402	H	09/02/2025	3368436	CD3	14711	-	Requested
TEST, TEST	2635402	C	09/02/2025	3368436	A.BLUE	14711	-	Requested
TEST, TEST	2635402	D	09/02/2025	3368436	HELICOBACTER PYLORI	14711	-	Requested

A red arrow labeled C points to the "Status" column header.

STAIN PROFILE

1. Stain Profile

TOPICS

- A. Your Upfront, Stain Profile** – The Stain Profile is the stains that are performed when your case first comes in for processing. When you begin as an Acupath TC Pathologist, we have you complete a Stain Profile, and this advises our system to automatically trigger a stain(s) based on the specific site(s).
- B. Stain Profile on the Doctor Review Screen**– You can now view the stains performed at anytime, for any site, and if there are any changes/updates needed, you can make that request by pressing the “Stain Profile” button at the bottom or on the main menu dashboard to open the Stain Profile Screen.

2. Stain Profile Screen

TOPICS

- A. Stain Profile Screen** – Once you press the Stain Profile button, the Stain Profile Screen opens to two sections; “Ordered” and “Added”. And if you click one of the stains in the Ordered box, you will see what sites that this stain was added to in the Added box. In this case, anytime a Duodenal, Duodenal Bulb, or Duodenum site order is placed, this triggers a A.BLUE (88312) Upfront Stain to be ordered.
- B. Next Site Ordered** – If you we choose the next stain, CD3 (88342) you will see the sites it is added to and in this case, it is also added to Duodenal, Duodenal Bulb, or Duodenum sites as well.
- C. Stain Variants** – In the Ordering Stains video, we mentioned that there are three different types of variants (microorganisms and non-microorganisms). These are (O), (NO), and (ONO) and the explanations are listed at the bottom of the Stain Profile window. This ensures that you are getting the correct CPT code for billing purposes. These stains can always be changed/corrected for your Upfront Stain Profile, and we can assist in getting the correct stain(s) as you request by site.

Stain Profile

Ordered	Added
A.BLU (O) (88312)	DUODENAL
CD3 (88342)	DUODENAL BULB
HP (88342)	DUODENUM
PAS (NO) (88313)	
Trichrome	
abluepos	
blue	

Your upfront stain profile is shown here. If you select the stain on the left, you will see what words 'trigger' the stain order. If one of those words is in the test site name, the stain will automatically be ordered. Please contact TC Support if you need to discuss this or make changes. You may contact them by using the email button on this screen, or by calling or emailing them directly.

- *Stains that have (O) next to them are stains being performed to detect microorganisms.
- *Stains that have (NO) next to them are stains being performed to detect non-microorganism substances.
- *Stains that have (ONO) next to them are being performed to detect microorganisms, non-microorganism substances, or both.
- *These modifiers are used to select the appropriate use of the stain to create select the correct CPT code for billing.

Email Stain Profile Close

Email Stain Profile Close

3. Email Stain Profile Button

TOPICS

- A. **Email Stain Profile** – If you'd like to make changes to your Stain Profile, the easiest way is to press the "Email Stain Profile" button that opens a new window.
- B. **Email Stain Profile Window** – Once you open this window, you can enter your changes in the message box and send an email to TC Support to make the updates. You can also request to have a call so TC Support can reach out to discuss, so if you have a preferred telephone or cell number to call, please provide that in the message box area. If you would like to review/change your entire Upfront Stain Profile, you could request a copy of your current Profile or request a new Form to make changes.
- C. **Send your Message** - Once you enter your desired message, press "Send" to ensure the email is sent to our team.

4. Acupath Training Videos Library

TOPICS

AcuReview 2 Training Videos Library – there are several places where you can view our videos:

- A. **YouTube:** [Acupath Laboratories, Inc – YouTube](#)
- B. **Acupath website:** By pressing the “?” in the upper right corner of the Doctor Review Screen, this will take you to our Acupath website with all our AcuReview 2 Training videos. www.acupath.com/acureview-2-training-videos/

The screenshot displays the Acupath website interface. At the top, a patient details header shows fields for Patient ID, Last Name, DOB, Sex, Age, Accession #, Case #, Account #, and Physician Name. A red arrow labeled 'B' points to a help icon in the top right corner of this header. Below the header, the main content area is titled 'AcuReview 2 Training Videos' and includes a sub-header 'AcuReview 2 Pathologist Training'. The page lists six training modules, each with a 'Watch Video' button:

- Logging In**: How to Access and Log Into AcuReview 2
- System Overview /Getting Started**: Introduction to AcuReview 2 and basic navigation
- The Doctor Review Screen**: Learn the layout of the AcuReview 2 Doctor Review Screen
- Ordering Stains**: Learn How to Order Stains In AcuReview 2
- The Pathologist Locate Patient Screen**: The AcuReview 2 Pathologist Locate Patient Screen
- The Pathologist Dashboard**: The AcuReview 2 Pathologist Dashboard

TOPICS

THE PATHOLOGIST DASHBOARD

AcuReview 2
Training Guide

1. The Pathologist Dashboard

TOPICS

- A. **Log Out Button:** Logs you out of AcuReview.
- B. **Practice Selection Dropdown:** If you read for multiple practices, this allows you to select the practice you need by clicking the dropdown or searching by typing the name.
- C. **Bell Icon:** Advises you of any alerts in the system.
- D. **Dashboard Label:** Advises you who is logged in
- E. **Cases Pending in the Lab:** The total number of cases currently still processing in the lab.
- F. **Current pending cases:** The cases you have pending to be read and finalized.
- G. **Stat Cases Pending:** This will show you the stat cases pending.

Each of these boxes are dropdowns (E, F, & G) and will open their main window and display the corresponding list.

If we click on F – Current pending cases, that window will open and load your current cases.

The screenshot shows the ACUPATH Pathologist Dashboard. Red arrows labeled A through G point to specific features:

- A:** Points to the **LOGOUT** button in the top right corner.
- B:** Points to the **ACUPATH GIDEMO - 8171** dropdown menu in the top right corner.
- C:** Points to the **Bell Icon** in the top right corner.
- D:** Points to the **Dashboard** label in the top left corner.
- E:** Points to the **6 Cases pending in the Lab** box in the top center.
- F:** Points to the **7 Current pending cases** box in the top center.
- G:** Points to the **1 Current number of stat cases** box in the top center.

The dashboard also displays a sidebar with navigation links, a 'Patients, By Status' donut chart showing 4 total patients, a 'Stain Orders and Consult Requests' table, and a 'New Chats' section.

Accession	Request	Date	Patient	Status
3368436	CD3	Sep 2, 2025	TEST, TEST	Complete
3368436	A.BLUE-PAS (O)	Sep 2, 2025	TEST, TEST	Complete
3368436	A.BLUE	Sep 2, 2025	TEST, TEST	Complete
3368436	HELICOBACTER PYLORI	Sep 2, 2025	TEST, TEST	Complete

2. Current Pending Cases Window

TOPICS

- A. Current Pending Cases Window:** This displays your list of pending cases. Those in **pink** are showing that the slides are not available yet. These cases are still pending in the lab.
- B. Case - Slides are available:** The case in white displays that this case is available and if you are a Lumea Digital client, you will see that in the “Lumea Slides” column that 9/9 slides are available. This case is ready to be read.

Home > Locate Patient

Check Show All to Display Finalized Cases

From: MM/DD/YYYY To: MM/DD/YYYY Compact Easy

*Note: Only the pending cases are displayed below. To view closed cases, click SHOW ALL and use the LOAD More buttons at the bottom, or search by name or date. For LOWER GI and UPPER GI use GASTRO in Test Type.

Patient ID	Last Name	First Name	Office#	Accession#	Test Type	Final	DOB	Physician	Chart#	Received	Site	Modify Diagnosis	Lumea Slides

4. Case Status and Stain Orders

TOPICS

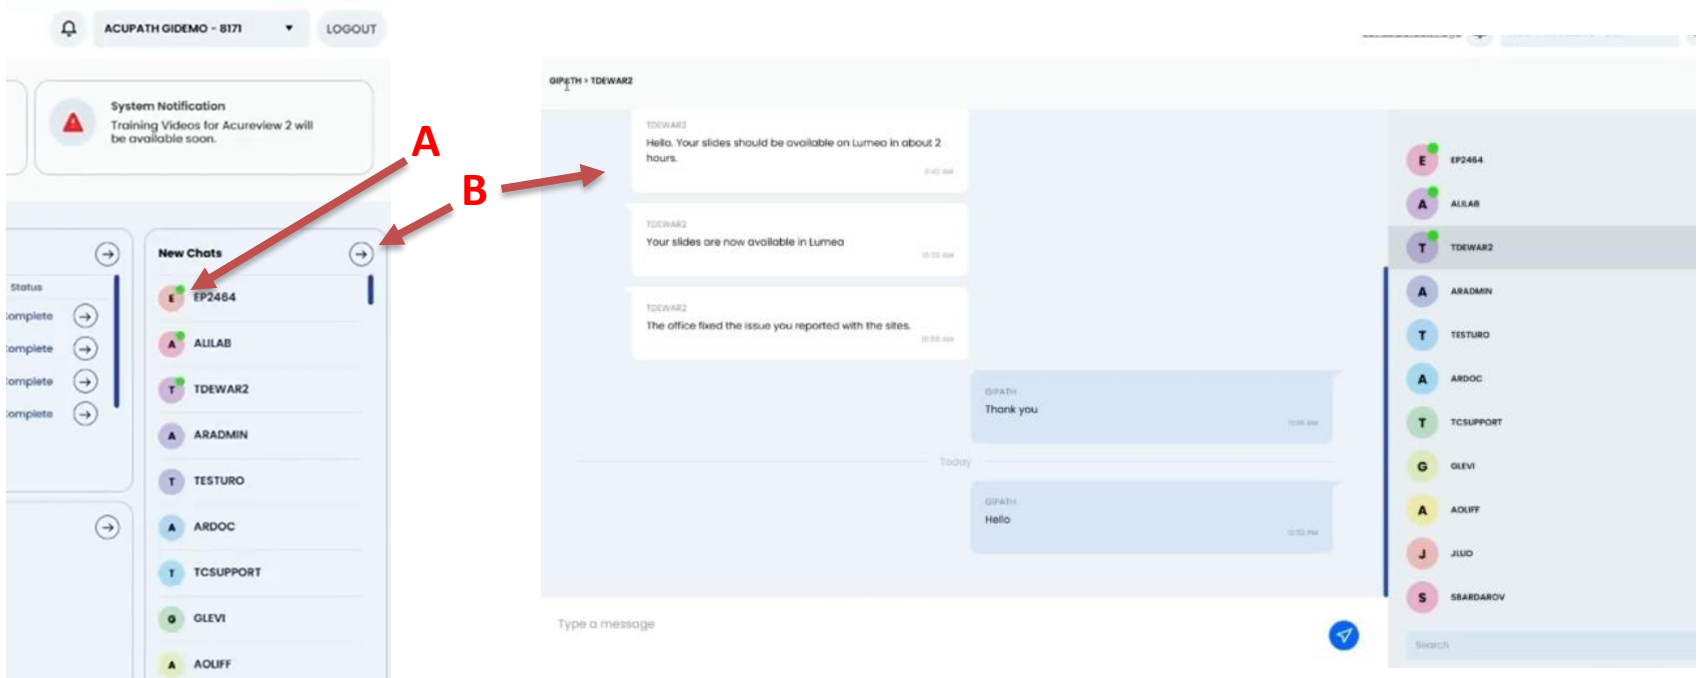

- A. **Case Statuses:** Total number of Cases in PRELIM, Number of cases pending CONSULT, and Cases signed out in Last 30 Days.
- B. **Patients, By Status:** This shows the total patients from this practice.
- C. **Stain Orders and Consult Requests:** This lists all the stain orders and consults, this shows the accession, stain requested, date requested, patient and status. If you click the arrow in the same row in the list, this will take you into that case.
- D. **Stain Orders – Full List:** If you click the arrow in the upper right of the box, this will open the window to the full list of all Stain orders and consult requests.
- E. **Chat:** The chat feature displays who is logged into the system, if they are active there is a green dot on their icon. You can click anyone and start a chat whether they are active or inactive. If they are inactive, it will show them a small display of your message.

5. Chat Feature

TOPICS

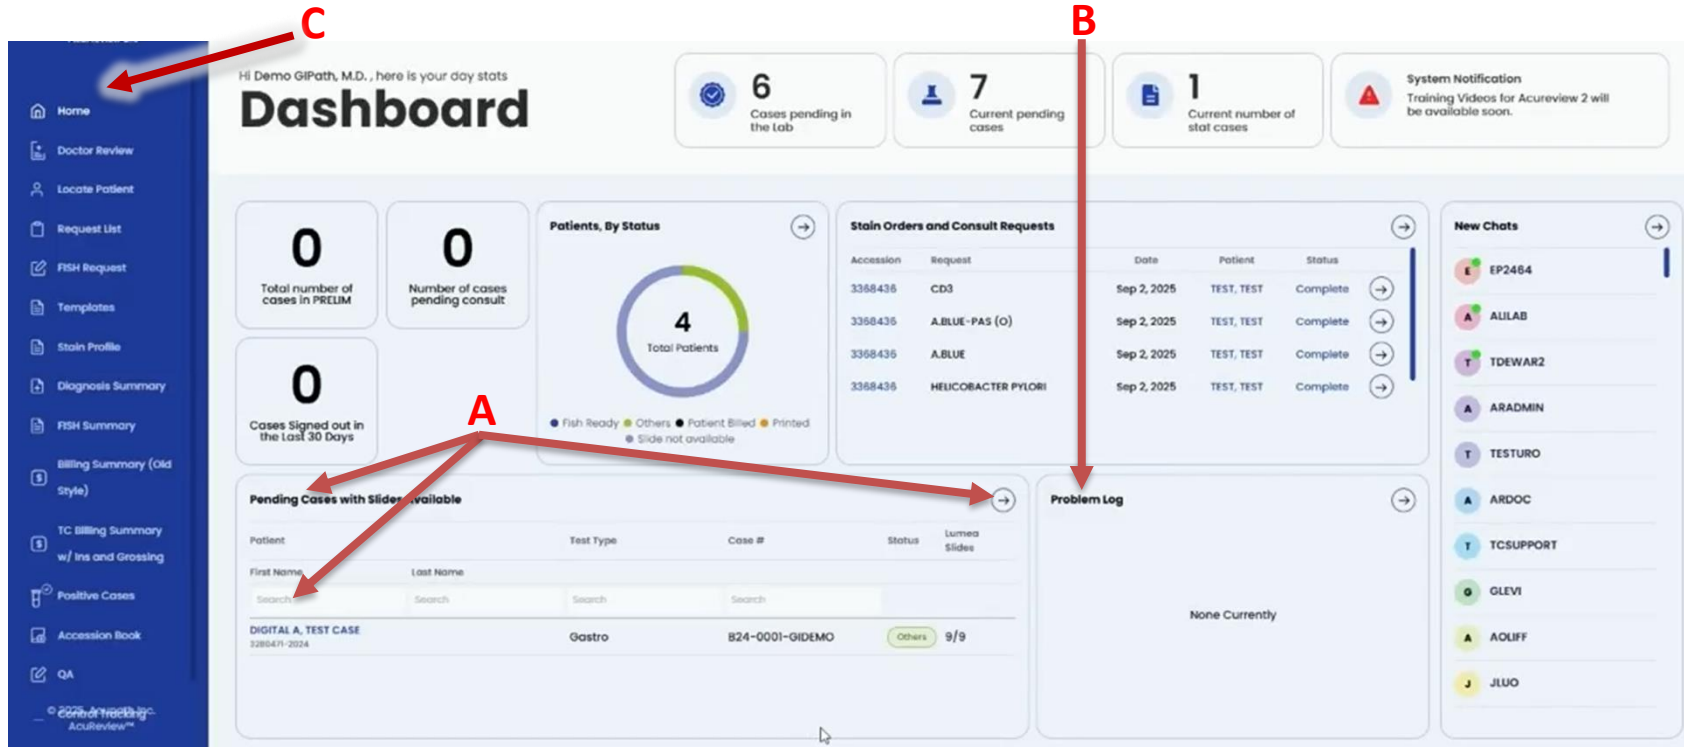

- A. Chat:** This feature allows you to start a chat click on a name and start a chat. We show who is logged into the system by a little green dot next to their name/icon. You can click any name, whether they are logged in or not and leave them a message.
- B. Chat Window:** If you click the  it will open the chat window. Once opened you can see any messages that were sent.

6. Pending Cases with Slides Available and Problem Log

TOPICS

- A. Pending Cases with Slides Available:** This shows you what cases are available for you to work on because the slides are available. This is showing there is one available to review. This is the same as your pending case list that you see on the Doctor Review window. You have the option to use the search fields within the window. Also, by clicking the  you can view all Pending cases. It also shows in the window that 9/9 Lumea Slides are available, so this full case is ready for review.
- B. Problem Log:** We have something called a problem log where if there's something wrong with a particular case, we log it in the Problem Log. So, if there was a site mismatch or if there was a bottle leaking or something like that, any of those things might show up in the problem log and then you would see them here so that you are aware of them as well.
- C. Main Menu:** On the left is the Main Menu of all menu items available in the dashboard.

The screenshot shows the ACUPATH Dashboard for Hi Demo GIPath, M.D. The dashboard includes a main menu on the left, a top navigation bar, and several data widgets. Red arrows labeled A, B, and C point to specific features:

- Arrow C** points to the **Home** link in the main menu.
- Arrow A** points to the **Pending Cases with Slides Available** widget, which displays a table of pending cases. The table has columns for Patient, Test Type, Case #, Status, and Lumea Slides. A search bar is located above the table.
- Arrow B** points to the **Problem Log** widget, which currently shows "None Currently".

Dashboard Widgets:

- Top Bar:** 6 Cases pending in the Lab, 7 Current pending cases, 1 Current number of stat cases, System Notification: Training Videos for Acureview 2 will be available soon.
- Key Metrics:** 0 Total number of cases in PRELIM, 0 Number of cases pending consult, 0 Cases Signed out in the Last 30 Days.
- Patients, By Status:** 4 Total Patients. Legend: Fish Ready (blue), Others (green), Patient Billed (yellow), Printed (orange), Slide not available (red).
- Stain Orders and Consult Requests:** Table with columns: Accession, Request, Date, Patient, Status.
- New Chats:** List of chat participants: EP2464, ALILAB, TDEWAR2, ARADMIN, TESTURO, ARDOC, TCSUPPORT, GLEVI, AQLIFF, JLUO.

HOW TO CREATE and EDIT DIAGNOSIS TEMPLATES

1. Select your Diagnosis Template

TOPICS

In other AcuReview 2 training videos, we talked about the fact that AcuReview 2 is a template-based system used for diagnosis. we showed when we did the video for the doctor review screen, how to select a template to do a diagnosis, but we didn't talk about how to create and edit them.

A. Primary Diagnosis: First you choose your Primary Diagnosis but clicking the dropdown menu.

2. Template Options

TOPICS

- A. Favorite:** Under Favorite, if you see a “blue star” filled in, this is a favorite. If the star is blue, this is not a favorite, you can click it to make it a favorite.
- B. Code:** Your code is how you identify the template and how the system identifies the template. You’ll have to use a code to identify the template. If I type acute, I’m going to get this particular diagnosis, because that’s the code that I used to create it.
- C. Category Code:** The category code is what determines what category of diagnosis that this particular diagnosis is. Whether it’s Cancer, Benign, Positive, Atypia; that’s going to be based on what you pick as the category code. In order for that to fill out when you pick the diagnosis, you’ve got to pick that in the template. That is why the Code and Category Code are required fields.

2. Template Options (Con't)

TOPICS

- D. Type:** here under type, you see this one says “esophagus”. So, type is an optional field that is not required. What type means is that you can lock down a template so that it can only be used for a particular site. In this case “esophagus”. If I was trying to do a diagnosis on the stomach, then this would not be available because it's listed as an esophagus diagnosis. If I wanted it to show up under stomach, I'd make it a stomach **Type** diagnosis. This is to narrow down your list so that certain things only show up when you're doing that type of site.
- E. Diagnosis and Secondary Diagnosis:** Based on how you fill this out, selecting this template will either just fill out the primary diagnosis, or it'll fill out the primary and the secondary diagnosis, or it'll fill out the primary secondary.
- F. Notes:** We now have notes, so you can add a note as well and have all three fill fields out from just one template. You can sort by clicking any option title and search within the field below each option title.

- G. Sort:** On this screen, you can sort by choosing any of the Column Names: Favorite, Code, Category_Code, Diagnosis, etc.
- H. Search:** You can also search by typing in your text in the field. To view all templates again, just remove the text from the field.

The screenshot shows the 'Templates' window in the ACUPATH system. It features a table with columns: Favorite, Code, Category_Code, Type, Diagnosis, Secondary Diagnosis / Microscopic Description, and Notes. Red arrows point to specific elements:

- G** points to the 'Favorite' column header.
- D** points to the 'Type' column header.
- E** points to the 'Diagnosis' column header.
- F** points to the 'Notes' column header.
- H** points to the search field below the 'Favorite' column header.

 The table contains several rows of diagnostic templates, such as 'ACA' (Cancer, Esophagus), 'ACUTE' (Benign), 'AIS' (Positive), 'AS' (Atypia), 'ASH' (Atypia), 'ATYPIA-C' (Atypia, Cytology), and 'BACTERIA' (Inflammatory, Cytology).

3. Edit the Diagnosis

TOPICS

A. Edit the Diagnosis: If you click a Diagnosis, it will open a window and take you to edit mode.

Favorite	Code	Category_Code	Type	Diagnosis	Secondary Diagnosis / Microscopic Description	Notes
	ACA	Cancer	Esophagus	INVASIVE ADENOCARCINOMA, POORLY DIFFERENTIATED.		

B. Code: This identifies the code that you are choosing to edit.

C. Type: This is a dropdown to choose the site.

D. Category: This is a mandatory field, which is also a dropdown to choose.

E. Diagnosis: In this field you can free type the Diagnosis Text, remember the text of this template will appear and then you can edit or add/modify to that text in this field as well.

F. Secondary Diagnosis: If you want to create a template for a secondary diagnosis, you'll notice on the doctor review screen there's a drop down for primary diagnosis and there's a drop down for secondary diagnosis. This will only be populated if this box is checked.

G. Notes: You can add additional notes or comments in this field.

H. CPT/ICD 9: Your CPT & ICD 9 codes; the ICD 9 code will not populate for the template unless you have it entered here.

7. Diagnosis Templates are Created for You By You

TOPICS

**Please remember that Diagnosis Templates are your own! They are created by You for You!
You are responsible to Create, Edit, Add, and Remove as you deem necessary.**

There have been requests to have the list of templates of other pathologists, once that list is shared, it then becomes part of your templates.

**You can make any changes to these templates now, as they are now your stored templates to do with as you see fit.
Any changes you make will not affect the other pathologists' templates and they cannot see your revisions.**

REPORTS

1. Diagnosis and FISH Summary Reports

TOPICS

- A. **Diagnosis Report:** This will provide a Diagnosis Summary based on a calendar dropdown “From” and “To”. The calendar will default to the last full month, choose your dates and press view to generate the report.
- B. **FISH Summary Report:** This will provide a FISH Request Summary based on a calendar dropdown “From” and “To”. The calendar will default to the last full month, choose your dates and press view to generate the report.

The screenshot shows the ACUPATH Dashboard. On the left is a blue navigation menu with the ACUPATH logo and the text 'AcuReview 2.0'. The menu items are: Home, Doctor Review, Locate Patient, Request List, FISH Request, Templates, Stain Profile, Diagnosis Summary (highlighted with a red arrow labeled 'A'), FISH Summary (highlighted with a red arrow labeled 'B'), Billing Summary (Old Style), TC Billing Summary w/ Ins and Grossing, Positive Cases, Accession Book, and QA. The main content area is white and titled 'Hi Demo GPath, M.D., here is your day stats Dashboard'. It features three summary cards: 'Total number of cases in PRELIM' (0), 'Number of cases pending consult' (0), and 'Cases Signed out in the Last 30 Days' (0). Below these is a section titled 'Pending Cases with Slides Available' with a search bar and a table showing a patient named 'DIGITAL A, TEST CASE' with ID '3280471-2024'.

The screenshot shows the 'Diagnosis Summary' form. It has a header 'Diagnosis Summary' and a sub-header '09/01/2025 - 09/30/2025'. Below this is a table with columns: Doctor Name, Patient Name, Obtained, Biopsy Site, Diagnosis, and Notes. The table contains two rows of test results. At the bottom, there are two summary rows: 'Total # specimens in category Cancer' with a value of 2, and 'Total # specimens from DEMO GIDOC, M.D.' with a value of 2. A red arrow labeled 'A' points to the 'From' and 'To' date fields, which are set to 09/01/2025 and 09/30/2025 respectively. A 'View' button is located to the right of the date fields.

DIAGNOSIS SUMMARY REPORT
09/01/2025 - 09/30/2025

Doctor Name:	DEMO GIDOC, M.D.
Patient Name	
TEST TEST	09/29/2025 Stomach
TEST TEST	09/29/2025 Esophagus
Endometrial adenocarcinoma, well-differentiated (FIGO grade 1 of 3); INVASIVE ADENOCARCINOMA, POORLY DIFFERENTIATED.	
Total # specimens in category	Cancer 2
Total # specimens from	DEMO GIDOC, M.D. 2

The screenshot shows the 'Fish Summary' form. It has a header 'Fish Summary' and a sub-header '09/01/2025 - 09/30/2025'. Below this is a table with columns: Requisition #, Office, Patient Name, Test Result, Final, and Date Received. The table contains two rows of test results. At the bottom, there is a 'Total Count:' label. A red arrow labeled 'B' points to the 'From' and 'To' date fields, which are set to 09/01/2025 and 09/30/2025 respectively. A 'View' button is located to the right of the date fields.

Batch Report

Date: 09/01/2025 to 09/30/2025

Requisition #	Office	Patient Name	Test Result	Final	Date Received
Total Count:					
Total					

2. Billing Summary (Old Style) Reports

TOPICS

- A. Billing Summary (Old Style) Report:** This is the original billing summary that was available in AcuReview 1. This was designed to a pdf document, as seen below or you can also export it as an excel file.

3. TC Billing Summary w/Insurance and Grossing

TOPICS

A. TC Billing Summary w/Insurance and Grossing: This report was designed for Billers, and when you view it on screen, all the columns are not viewable, there is a lot more information to view when you export it as a spreadsheet. So, if you export it as an Excel spreadsheet, you'll see that it includes not only everything from the old-style billing summary report, but it includes all the grossing, all the insurance information, and all the CPT codes and information that would be needed for billers.

Once you export it, it takes a few seconds to populate because it contains a lot of information and download the excel spreadsheet. It will then show up in your downloads to "Open file" and you can save it from there.

A →

The image shows a two-part screenshot. The left part is the ACUPATH Laboratory Inc. dashboard, featuring a sidebar with navigation links and a main area with statistics and a pending cases section. The right part is the 'TC Billing Summary w/ Insurance and Grossing' report, which includes a date range filter and a table of billing data. A red arrow labeled 'A' points from the 'TC Billing Summary w/ Insurance and Grossing' link in the sidebar to the report view.

6. Control Tracking Form

TOPICS

- A. Control Tracking Form:** This will bring up the same calendar drop down and automatically default to the full prior month. And upon clicking View, you will notice that it takes a little bit of time to populate, because this form must pull a lot of data. These are the forms that are received with all slides upon delivery.

The screenshot displays the ACUPATH LABORATORIES, INC. AcuReview 2.9 interface. On the left is a dark blue sidebar with a menu. A red arrow labeled 'A' points to the 'Control Tracking Form' option in the menu. The main content area shows the 'CONTROL TRACKING FORM' with a header 'ACUPATH LABORATORIES, INC.' and a date '10/3/2025 11:33:38AM'. Below the header is a table with columns: Antibody, Positive Control Block #, Negative Control Block #, Lot Number, Ventana, Leica, Dako, Sakura, Acceptable, Not Acceptable, and Initials. The table contains one row for 'H&E' with values '050624', '050624', and '05062401'. Below the table are sections for 'Notes: Please check all slides above and sign' and 'Pathologist Signature:'. A red arrow labeled 'A' points to the 'View' button in the top right corner of the form.
